**Population (2000):** 4586

**Median Household Income:** \$66,387.00

**Geographic Area:** 48 square miles

[Click here](#) for a description of the award levels and how they are calculated.

### Score

The scores that you see on this page are preliminary until you submit your final assessment. After submission, your community will be assigned an award level based on the percentage of total points earned in each of the following three categories:

- **Current environment of your community:** The built infrastructure your community has in place now that supports active living
- **Policies and planning:** Your community's commitment to creating an active community in the future, as reflected in the policies, planning and funding your community has in place now
- **Programming and promotion:** the programs and events your community offers that promote physical activity -- at work, at school and around town

**Please note that each assessment submitted for award consideration is reviewed by an Award Committee to ensure that standards are fairly applied. The review committee reserves the right to request documents and photographs that verify assessment results.**

Your current score for these three categories will appear in the scorecard below. A by-section scorecard is also provided below.
