

Chelsea Farmers Market Year 7 Proposal

Through a professional manager, increase in quality vendors and the support of St. Joseph Mercy Chelsea Hospital the market is reducing the grant request by \$4000 for the Year 7 plan. We have been steadily growing over the last three years and plan to use summer vendor fees to cover the decrease in grant funds. The dollars awarded to the market would go toward the market manager salary of \$18/hour, 20 hours a week for our year round market. This funding makes it possible for continued professional development of the market manager and supporting the local food economy.
