

## Chelsea Farmers Market Yr. 8 Proposal Description

The market is continuing to grow and flourish! We plan to make an ask of 20% less every year until we are a completely sustainable market; Yr. 8 5H funding request will be \$13,800, which represents 29% of the Chelsea Farmers Market total budget. Due to growing resources, sponsorships, growing vendor numbers and overall continued sustainability modeling we feel this goal is attainable. We most certainly will re-evaluate each year as real-time circumstances shape the direction of the market. We are especially grateful for the efforts of 5HF and your contribution to our markets!
